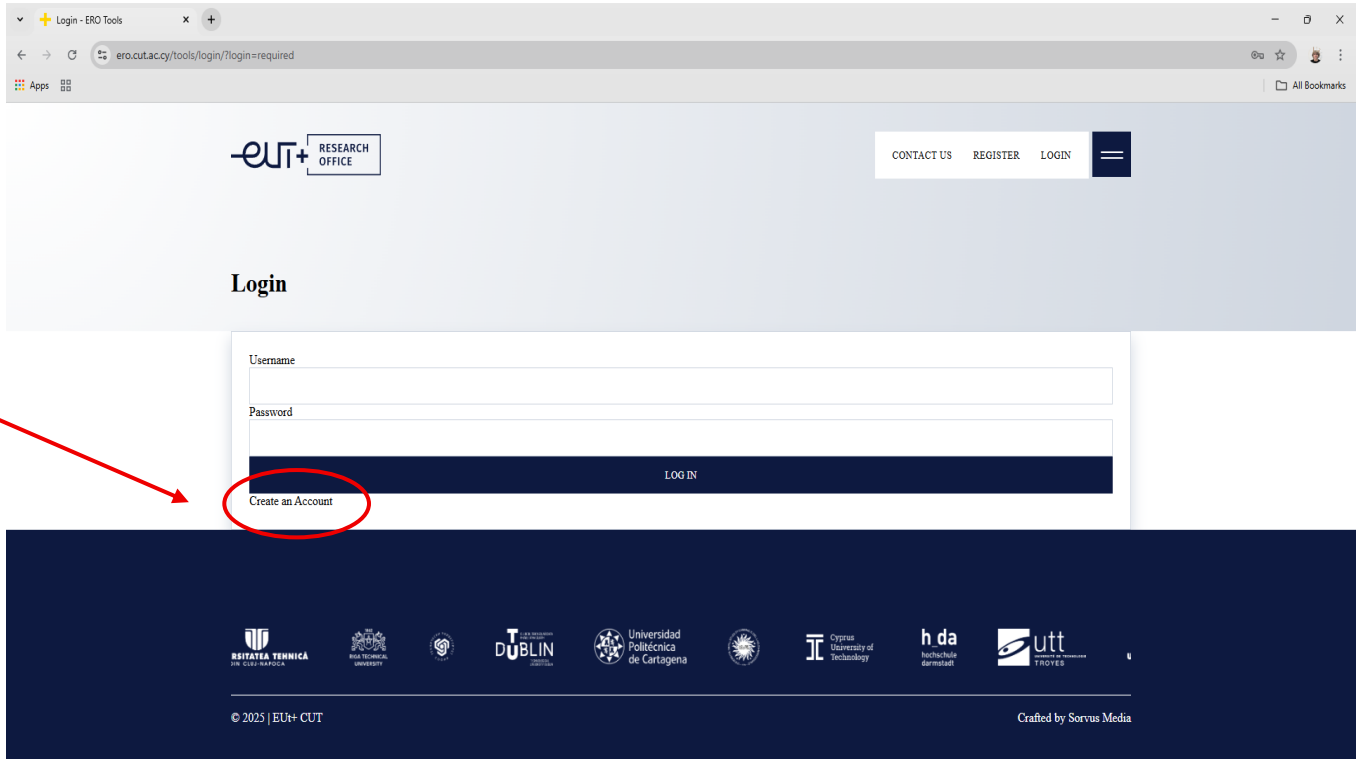
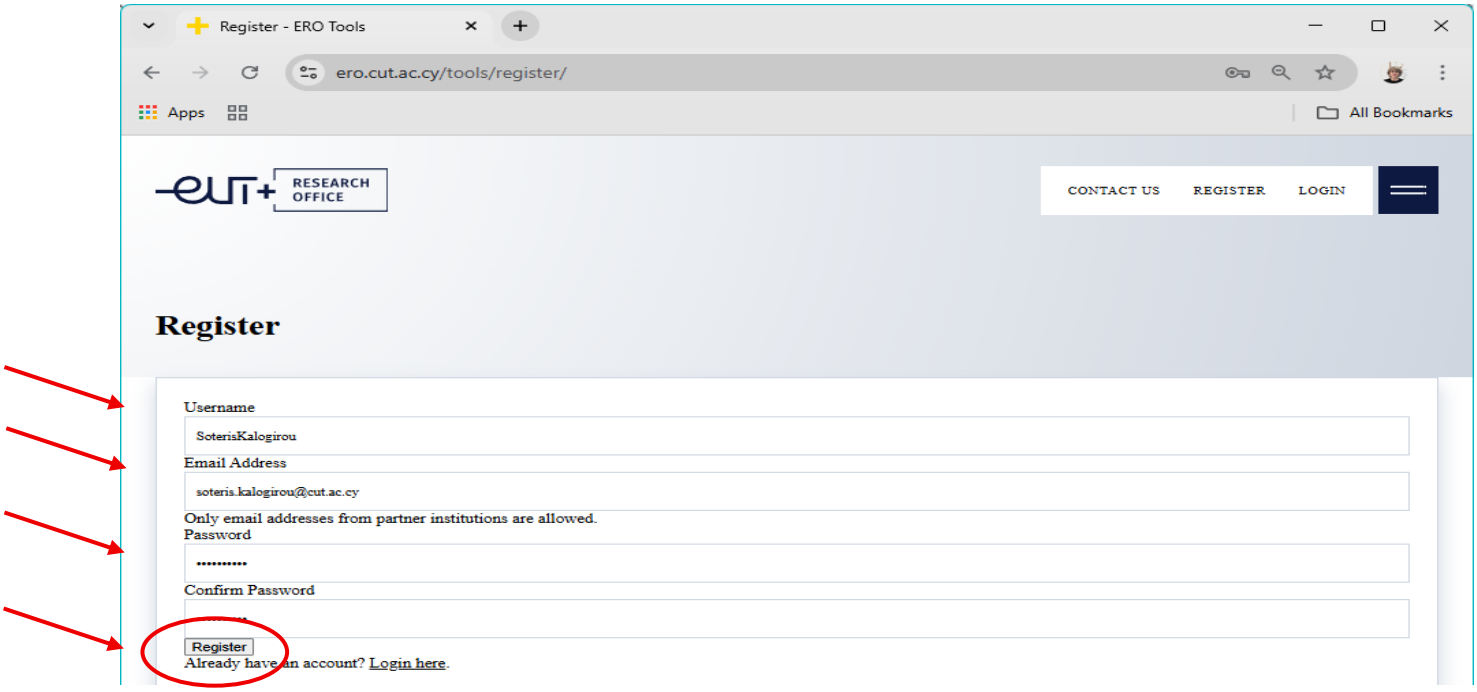
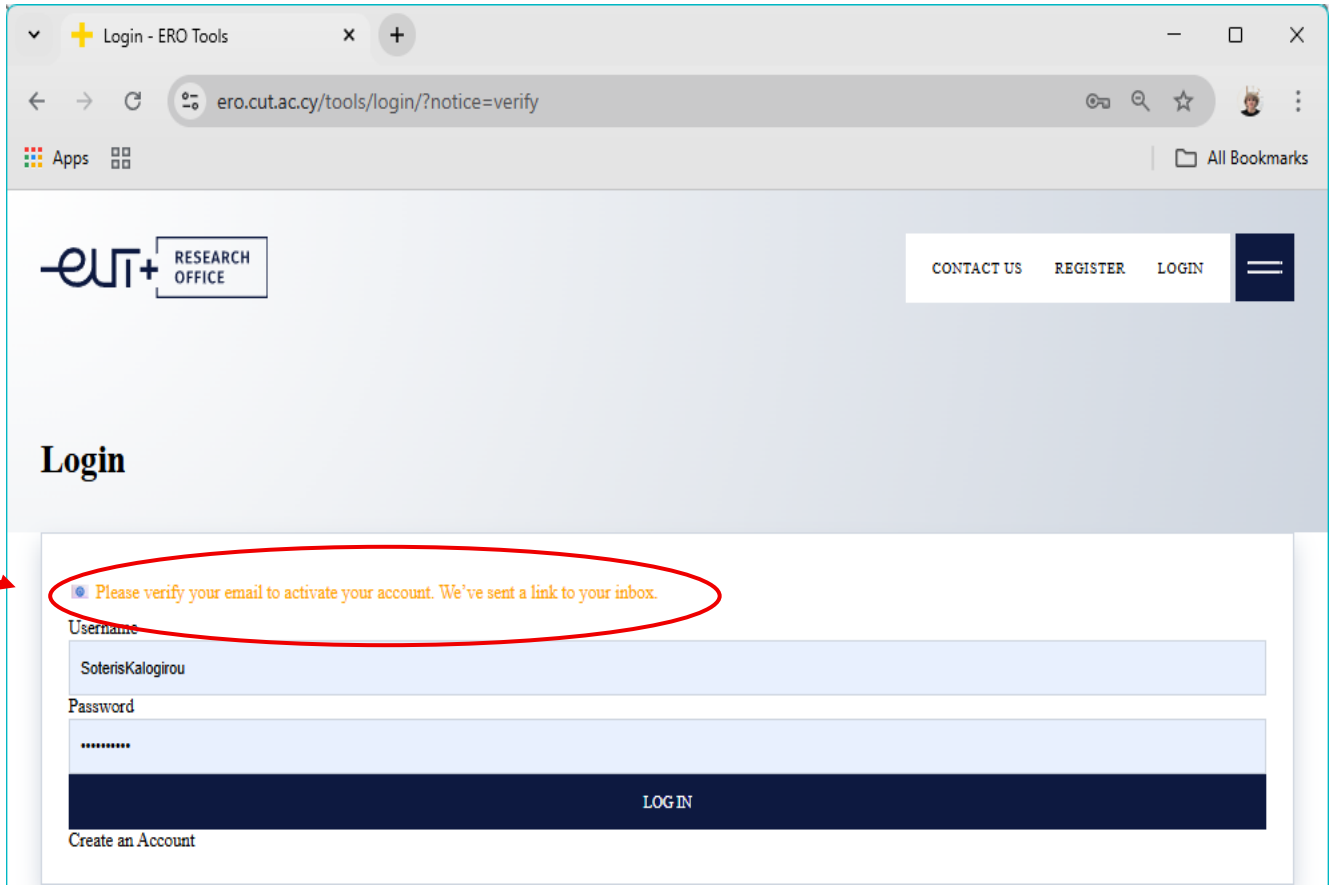
Access to the tool is available exclusively to EUt+ Alliance users with an institutional email address from a participating EUt+ member university.

1. **First-time users must create an account using their institutional email address.**
2. **During registration, you will set a username and password.**
3. **For all future access, simply log in using the username and password you created.**







Check Junk Folder or email security solutions for the verification email.

EUt+ Graduate Research School (EGRS)
Within the framework of the European Graduate Research School (EGRS) of the EUt+ alliance, in which our university actively participates, CUT developed a platform aimed at strengthening research collaboration and networking within the alliance. This platform leverages the results of a recent survey focused on identifying researchers working in the same scientific fields (based on the ERC classification), facilitating the discovery of partners for joint research projects, cotutelle agreements (joint PhD supervision), and interdisciplinary collaboration.
